## PROFESSIONAL EXPERIENCE

---

**Citigroup | Analyst, Investment Banking (Data Science)** July 2025 – current | London

**Citigroup | Summer Analyst, Investment Banking (Data Science)** June 2024 – August 2024 | London

- Created market and company insights using Python, Excel and SQL for client presentations
- Improved internal Python scripts and Excel workbooks, reducing manual steps and increasing speed
- Developed a new internal data science product including cleaning data with Python and SQL, analysing trends and outliers in Excel and presenting the final project to senior management

**Citigroup | Summer Analyst, Investment Banking (Natural Resources)** June 2023 – August 2023 | London

- Supported a proposal for an IPO, contributed to live transactions and conducted case studies
- Carried out financial valuations and worked with Excel, PowerPoint, Bloomberg, MergerMarket and FactSet
- Produced a full valuation of AkzoNobel (DCF, precedents, peer comps) and presented the analysis to senior management.

**University of Bristol | Research Assistant, School of Economics** March 2022 – June 2023 | Bristol

- Cleaned and analysed labour market using Stata, supporting research on reducing the duration of unemployment
- Produced lecture notes for the third-year unit "Machine Learning for Economic Analysis" using LaTeX
- Updated figures and tables for the "Economic Data for UoB students" handbook with R

**Austrian National Bank | Summer Intern, Economic Analysis and Research Department** August 2022 | Vienna

- Contributed to the methodology report of the OeNB Euro Survey, producing tables and visualisations in R
- Gained insight into the organisation of survey data by extracting and analysing data from the OeNB Euro Survey dataset with Stata
- Participated in meetings on the statistical procedure of imputation and handling missing variables in general

**Medical University of Vienna | Summer Intern, Department for Medical Statistics** July 2020 and July 2021 | Vienna

- Contributed to an academic paper in Life Sciences on mortality across stages of liver failure
- Analysed large medical datasets using R and recorded my progress by writing reports with R Markdown
- Greatly improved data analysis and problem-solving skills by engaging in data cleaning and carrying out statistical analysis using survival analysis, variance analysis, t-tests and power analysis
